

The Thriving At 25 Outcomes Evaluation Tool is based on the Prevention Leadership Council’s framework for children and youth and provides strength-based measures for holistic development. The tool compliments needs assessments or risk behavior surveys to add the other half of what positive youth development aims for – the healthy development and full potential of all young people. The Thriving At 25 Framework is based on the Forum for Youth Investment’s Ready By 21 Dashboard and contains five domains for healthy development. CYDT’s Research and Evaluation Committee – a team of academics, evaluators and youth-serving professionals – researched reliable, valid and positive measures that examine what we DO want to see young people think, feel, and do.

CYDT’s Research and Evaluation Committee recommends utilizing all measures with the tool, as one of the goals is to capture the holistic development of our youth. However, the committee understands time constraints and can customize the tool to address the sub-domains you are most interested in examining.

To customize the Thriving At 25 Outcomes Evaluation Tool to address the sub-domain(s) you are most interested in examining, complete this form and e-mail it to Cdphe.pscash@state.co.us. A Zoomerang survey link will be sent to you to as well as a link to the survey results. Survey respondents will be anonymous.
